

ILAS Autumn Exchange Workshop: Buddhism in Japanese Culture

In what ways has Buddhism influenced Japanese history and culture?

Apart from exploring this question through group investigation and discussion, this seminar will be combined with a Zazen (seated meditation) experience at Daitokuji, the most renowned Sohto monastery in Japan. Moreover, as the seminar venue is immediately located within the lush autumn forest and also a short visit is planned to Kayabuki no Sato, a village of old houses with their thatched roofs, this exchange workshop will provide ample occasion to refresh yourselves from your everyday studies.
